PROFILE

Highly motivated individual with 6+ years of experience in both Development and Quality Assurance and a certified UiPath developer looking for a challenging role to utilize my technical and management skills.

SKILLS

Agile | RPA | UiPath | Scrum | Report metrics | Problem solving | MSSQL | Project Management | Software Testing | Regression | Integration

SUMMARY

- Proven hands-on experience in building RPA (Robotics Process Automation) solutions using UiPath and worked on multiple projects from scratch.
- Produce estimates for projects and change requests. Advocate on sprint calls, stand-ups and other meetings with stakeholders on day to day works.
- As a QA Software tester involved in complete product testing life cycle including designing, developing and implementing test plans, test cases and test processes fueling swift corrective actions, significant cost savings and audits.
- Hands-on technology Professional accustomed to working in complex and project-based environments. Multifaceted experience in QA software testing, software development, and user-acceptance testing.
- Work closely with onshore clients, SME, and Managers, providing inputs during project planning like resource requirements, development estimates, etc. and throughout the course of development to ensure business objectives are met.

EXPERIENCE

SENIOR SOFTWARE DEVELOPER

Cognizant (Aug 2019 - present)

- Providing complete solution to client's objective including Requirement gathering, Designing, Developing, Testing, Production and Maintenance.
- Completed 6 processes in 3 months and saved $24 thousand per year and earned a 2-year contract from a client by reducing 5 FTE.
- Hands-on Experience in creating Process Understanding Document (PDD) and developed respective Solution Design Documents (SDD).
- Expertise in RE-Framework, Orchestrator, Excel, Macros, Queues, Web and Citrix automation.
- Acting as a scrum master, getting all the road blocks cleared, bridging between client and management with the metrics deliverable and report maintenance.
- Maintain the BOT and gave Post Production support by providing enhancement opportunities, reduced the BOT run time, better exception handling and bug fix.

SENIOR SOFTWARE QA ENGINEER

Born Group (Aug 2016 - Aug 2019)

- Worked with highly valued clients like Walmart, eBay, Sam's club etc. and earned their trust on completing projects on time and reducing the work effort by test plan creation & identified the key areas.
- Played a lead role in BPM testing team, conducting sprint calls and working on the daily work log to complete the task.
- Complete ownership of task assigned for the sprint which includes test analysis, designing, writing, executing and logging bugs.Created unique test data for the weekly regression on given sprint to fill the gap of untested areas.
- Building automation cases for regression suite using Selenium IDE, Katalon Studio, and other automation frameworks.

SOFTWARE TESTER

Amazon India (Jan 2014 - Aug 2016)

- Worked across 6 Generations of Amazon Kindle devices from the scratch to successful customer release and various OTA builds for 9 generation devices.
- Took Complete ownership of Build acceptance testing (BAT/BVT) in 18 locales with respective marketplaces and decided the QA acceptance/reject based on issues faced.
- Addressed the clarification raised by the testers and raising new issues and monitoring for tracking purpose. Also handled floor support queries for the components owned.
- Based on release notes for the current build, identified the key impacted areas and guided the team on focused testing.
- Involved in Triage calls and revised the priority and severity of the issues.
- Analyzed customer issues and provided a workaround until it has been fixed and also identified loopholes in the projects and presented ideas for process improvements.
- Created test plan, scenarios, and cases for new features and components. Optimized existing cases to save work turnaround time.

CERTIFICATES

UIPATH — **Advanced RPA Developer Certification**

AGILE TESTING ALLIANCE — **Certified Practitioner – Manual Agile Testing**
